Summary of Change:

The changes to SASP and CRD Guidance reflect recent updates to incorporate key i2i principles and processes into AMS policy. The updated guidelines champions only the best and most practical new concepts entering the NAS ConOps and then move forward for investment and implementation.

Reason for Change:

This change is in response to recent AMS policy updates in the governance on how we manage our investment resources; update AMS to include key engineering and management practices already in place; and strengthen AMS strategic planning processes, as well as the realignment of organizational responsibilities. These changes are compatible with approved SASP and CRD changes to the AMS policy.

Development, Review, and Concurrence:

ANG-D23, AAP-130, ASP-120

Target Audience:

NAS and Non-NAS programs that go through the SASP and CRD processes to obtain funding.

Briefing Planned: Yes.

ASAG Responsibilities: Review and comment.

Section / Text Location:

Lifecycle Phases & Decisions, Concept & Requirements Definition, Guidelines for Service Analysis and Concept and Requirements Definition (CRD)
